

# AMERMAC™

## MODEL 4000 PORTA-TRUER

### PRODUCT FEATURES

INCLUDES  
SCOOTER SEAT

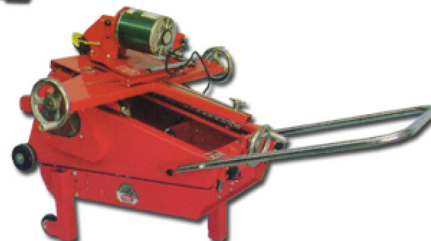

The 4000 Porta Truer is designed to handle bus, truck, trailer, passenger car, light truck and racing tire applications.

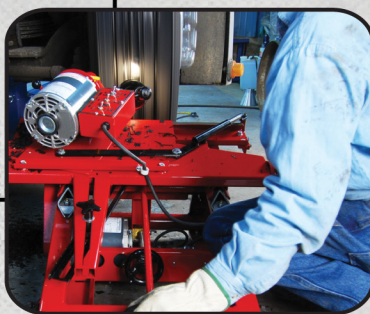

Fast, accurate and dependable, the heavy duty 4000 Porta Truer is designed to roll up to any vehicle and true the tire without removing the wheel. The versatile design means the entire job can be completed within a matter of minutes. Truing the tire on wheel bearings insures absolute accuracy.

- Versatile, low maintenance design.
- Folding handle design for compact storage.
- Built-in tire profile follower.
- Cuts up to 17.5" wide on a 24" profile.
- Adjustable work light.
- Self sharpening blade with manual override and safety blade guard.
- 14 foot power cord.

### OPTIONAL ADJUSTABLE TRUER STAND

PORTA-TRUER  
on optional  
stand
