

ALIGN FOR PROFIT

\$12,600 PROFIT in the first month! *

**"Proper All-Axle Alignment starts with steering, suspension and frame component inspection."
- TMC**

70%
of trucks on the road are misaligned

This affects Driver Comfort, Fuel Consumption and Tire wear.

Low Cost of Sale

A three-axle alignment for \$200 takes about an hour. The parts cost is almost zero and the tech cost is only 1 hour.

"Alignment is almost all labor and menu priced."

According to RP642...

TMC 

ALIGNMENT PRINCIPLE

- The ideal value for the angle formed by the centerline of the vehicle frame and the direction that an axle points is 0 degrees. This is the Bee Line way.

**"Attempts to correct alignment on a vehicle with worn or loose components are pointless"
- GY Service Manual**

60%
of trucks that need to be aligned have worn parts.
